AMETROS

Settle well.

# Save your medical funds

Amethyst links to your personal bank account...

Amethyst Healthcard links to the member's existing bank account and helps facilitate all of their care-related payments. Members always remain in complete control of their settlement funds.

The Amethyst card works like a traditional insurance card, with no copays or extra charges, helping you get the care you need.

Amethyst's care advocates will help you get the treatments you need and advise you on reporting your Medicare Set Aside (MSA) to Medicare, if necessary.

# by signing up with Amethyst

...and saves you an average of 21% on your healthcare expenses

Amethyst secures discounts on your medical bills so you can save your money to pass on to your family, estate or beneficiaries.

How do we do this? We review every bill, searching for savings, and we have agreements with many healthcare networks to reduce costs to you.
