CareQuote provides quick quotes for prescription, home healthcare, skilled facility, and durable medical equipment services. We ensure that claimants have visibility into the actual pricing of these services during settlement through our discount medical networks.

CareQuote Turnaround Times

Prescriptions

We need to know:

- The National Drug Codes, or NDC
- · A list of the medications the injured party is taking
- Any recent MSA's and Care Plans (within the last year)

Note: CareQuote's costs are based on today's current rates, but can sometimes be locked-in for a period of time.

A NETWORK FOR YOUR HEALTHCARE NEEDS

Facility Care

We need to know:

- The current facility and that we have approval to use the injured party's name when speaking with the facility
- Are we looking for a new facility? We will quote a low, medium, and high facility cost
- What level of care does the injured party require? An MSA or future medical report will give this information
- Is the injured party willing to change facilities?

Home Healthcare

We need to know:

- How many hours per day, per week, and what type of care is required (home health aid, LPN, RN, etc.)
- Is care currently done by a particular agency?
- Is the injured party willing to change agencies?

Durable Medical Equipment

We need to know:

- exactly what the injured party is using MSAs usually quote a generic DME, for example with wheelchairs, we need to know the height and weight of a claimant
- Exactly what the injured party is receiving typically an adjuster will be able to run this report
- For prosthetics, we need specifics most of the time the adjuster will have the most recent invoice for a particular prosthetic

Note: CareQuote's costs are based on today's current rates, but can sometimes be locked-in for a period of time.
