

A STEP BY STEP GUIDE TO PROFESSIONAL ADMINISTRATION

STEP 1

INVOLVEMENT

Involve Ametros if injured party:

- Doesn't want to manage own medical care
- Is afraid settlement money will run out for medical care
- Has MSA reporting concerns
- Would want to pay less than full price for medical care

STEP 2

ENGAGEMENT

Ametros will:

- Perform outreach to the injured party to determine and address fears of settlement
- Discuss benefits of using Ametros' products, including transparent pricing and cost savings, to transition seamlessly to post-settlement care

STEP 3

FEEDBACK

Ametros will:

- Provide valuable feedback about the interest level the injured party has in settlement and in using Ametros' services
- Keep all parties involved as necessary

STEP 4

COORDINATION

Ametros will:

- Coordinate all parties, including injured parties, employers, attorneys, brokers, medical providers and Medicare
- Prepare documents for settlement and coordinate the establishment of an account to manage the medical funds

STEP 5

PAYMENT

Only if the claim settles, and all parties agree to use Ametros, will any applicable fees be paid to Ametros

STEP 6

ONBOARDING

Ametros will:

- Contact all doctors, providers, and pharmacies, so the injured party can use Ametros' health cards like they would a regular insurance card

STEP 7

SUPPORT

- Ametros' Care Advocate team will be available to all parties 24/7 to answer any questions and provide support
- Ametros' online portals provide constant insight into savings and spending trends.
